

Board Policy 314 Outside Activities of Staff

Reference: *Education Code Section 87034*

The Board recognizes that members of the staff enjoy private lives and associate with others outside of the District for political, economic, religious or cultural reasons. The Board and its supervisory staff, however, have a responsibility to evaluate staff members in terms of their faithfulness to, and effectiveness in, discharging school duties and responsibilities. Therefore, when non-college activities threaten a staff member's effectiveness within the District system, the Board reserves the right to evaluate the impact of such activities upon an instructor's responsibilities to the students and to the Board.
